

The Brooklyn Hospital Center

Department of Family Practice

October 13, 2003

To Whom It may Concern:

It is with great pleasure that I submit this letter of recommendation on behalf of Mr. Roosevelt Gainey. He has a demonstrated gift of, 'Energy Manipulation' and the talent of a marvelous teacher and martial artist. I have been one of his students, for over 6 years, and I suffer from a progressive back disorder. His massages, exercise and diet recommendations has resulted in me being increasingly mobile and productive, on the least amount of analgesics. He works along with medical providers, encouraging his students to use Tai Chi and energy work as complimentary tools, to achieve the end being, maximum performance and minimal discomfort.

You will see that he will be great benefit to your students, clients and most of all your staff. Once your staff uses the energy work you will see increased peace and productivity from every member who partakes. This will then lend itself to and the improved portrayal of your business to incoming clients. As a physician in a local hospital, I have come to know how important the first impression is to those you provide serve for.

It is without hesitation that I recommend Mr. Gainey to your company. You will be very happy that you have embarked on this joint venture.

Respectfully,

Aliyah Morgan MD, MPH
